ITAR – Maintenance of Records by Registrants

UArizona is required to maintain records related to exports for five years after the license or other approval has expired.

- This includes exports using exemptions, applications, and licenses.
- UArizona includes this five-year record keeping requirement in its Technology Control Plans.
- The university’s export control team maintains records related to all exemptions, applications and licenses five years after the license’s expiration or other approval.

Reference: CFR 22 § 122.5 Maintenance of records by registrants for details or contact export@Arizona.edu
