The off-campus rate is applicable to those projects that are conducted in facilities not owned, leased or operated by the University. If the project is conducted in leased space and lease costs are directly charged to the project, then the off-campus rate must be used. A project is considered off-campus if more than 50% of its salaries and wages are incurred at an off-campus facility. If a project is determined to be off-campus, it shall be considered wholly off-campus. Separate on and off-campus rates will not be used for a single project.

## Clinical Trial Rate

The University will accept a 25% Total Direct Cost F&A rate for non-federal/sub-federal clinical trials that meet the eligibility requirements and use the standard University agreement. The University must ensure that federal sponsors do not subsidize F&A costs of other sponsors. The clinical trial F&A rate of 25% TDC is a fair rate and adequately reimburses the University for F&A costs associated with conducting clinical trials. Studies not meeting all the eligibility criteria or studies not using the standard agreement or similar terms will be budgeted at the full on campus research F&A rate.

## Fringe Benefit Rates

### Employee Related Expenses (ERE RATES) 7/1/19-6/30/20

Graduate Assistant Tuition Remission:

As of 06/16/15 Tuition Remission is included as a mandatory benefit budgeted separate and distinct from ERE/fringe benefits, usually in the Other category of operations. It is still excluded from indirect cost calculations.
